HEAD INJURIES

PATIENT INFORMATION

You do not need to stay in the hospital at this time. Persons receiving blows to the head may have injuries that cannot always be seen by x-ray or examination soon after an accident. If any of the listed conditions should occur, please contact your private or referral physician or return to the Emergency Department.

1. Change in the level of consciousness (drowsiness, confusion, disorientation, convulsions, unusual behavior, unconsciousness).
2. Persistent headache, stiff neck.
3. Vomiting, frequent or projectile.
4. Change in coordination or weakness or numbness in arms and legs.
5. Visual changes--unequal pupils (one eye larger than the other), blurring or seeing double.
6. Clear or bloody fluid from your ears or nose.

Instructions:

1. Diet
Clear liquid x _____ hours. Progress as tolerated.
2. Medication
Aspirin/Tylenol _____ tabs every _____ hours.
No tranquilizers or sedatives.

Ideally, you should not be alone the next 24 hours. You should be awakened every _____ hours for 24 hours.
